

Voip4SAT Service

milanoteleport
the sky is not the limit

Voip4SAT Service

Make and receive phone calls from anywhere to anywhere around the world, just like on a domestic phone. Milano Teleport developed a proprietary VoIP solution - VoIP4SAT - which uses an exceedingly secure infrastructure to provide the most reliable and cost-efficient phone solution, with extremely high voice quality, even in the middle of the ocean!

The VoIP platform has been integrated with Milano Teleport's proprietary monitoring system, allowing customers to have real-time access to their CDR Registry for the service. Data monitoring is easy and complete: an excel export through a simple download makes data available 365 days.

- > Local geographical numbers
(US, European Countries, others)
- > Postpaid options & Prepaid scratch cards
- > IP PBX options
- > No connection fee
- > Bandwidth use <20kbps per call
